

Découpage Workshop

WITH BECCA HULBERT

Equipment – What You'll Need

Tissue paper or Découpage Papers (you can get this from Hobbycraft/The Works/Trago Mills £1.99). PVA glue and a paint brush.

Step 1

Either rip or cut your paper into circles or squares about the size of a 50p coin.

TIP: The paper circles or squares don't need to be neat!

Step 2

Mix a paste of half glue and half water into a bowl. Brush the glue onto the object that you are going to Decoupage and stick on the paper. Then put a layer of the glue paste on the top of the paper as well as underneath the paper.

Step 3

Once it is dry you can now display your beautiful creation on a shelf or hang the letters on your wall.

Step 4

Why not try découpage something else? How about a vase or some bedroom furniture? Be creative!

Happy découpage! Please send WILD a photo of anything that you do, we would love to see it.
